Teachers:

9 hours student facing

4 hours with set team meetings

7 hours planning for next week's lessons and giving feedback online, GCN Training, etc

5 hours of advisory outreach

Total=25 hours

Work/Assignments

Message to Students: If you complete all assignments and make revisions that are asked for by teachers, you have the ability to pass for the year. Think of it as a summer school accelerated program and an opportunity to pass for the year! There is always a chance to improve your grade and to earn credit.

Advisory

Students will be assigned an advisor, who will be responsible for checking in with them and their family on a weekly basis to ensure all of our students have an access point to the work
